OBJECTIVE

Computer Science undergraduate seeking a **Tier 1 Technical Support** role, with hands-on experience in **troubleshooting, MySQL, and web technologies (HTML, CSS, JavaScript)**. Strong analytical, communication, and presentation skills, with experience collaborating in Agile teams, writing technical documentation, and solving **100+ problems on LeetCode**. Eager to resolve client tickets, meet SLA targets, and continually improve customer satisfaction on cloud-based software platforms.

EDUCATION

Qualification	Institution	Year of Passing	CGPA / %
B.Tech – CSE	R.V.R & J.C. College of Engineering, Guntur	2027	8.9 / 10.0
Intermediate (MPC)	Vidwan Junior College	2023	98%
SSC (10th)	Sree Narayana High School	2021	100%

TECHNICAL SKILLS

- **Technical Support:** Troubleshooting, Ticket Resolution, Root-Cause Analysis, Debugging, Error Log Monitoring, User Training & Documentation
- **Databases:** MySQL, SQL (Queries, Joins, Data Retrieval & Validation)
- **Languages & Web:** Java, HTML5, CSS3, JavaScript (ES6+), Responsive Web Design
- **CS Fundamentals:** Object-Oriented Programming, Database Management, Data Structures & Algorithms
- **Tools:** Microsoft Word, Microsoft Excel, Git, Visual Studio Code, Figma, Vercel, Netlify
- **Soft Skills:** Communication & Presentation, Analytical Thinking, Critical Thinking, Time Management, Team Collaboration, Customer Focus

INTERNSHIP EXPERIENCE

Edunet Foundation × **IBM SkillsBuild** — *Frontend Developer Intern* | AICTE Certified *August – September 2025*

- Developed and maintained production-grade web applications using **HTML5, CSS3,** and **JavaScript (ES6+)**; **debugged and resolved functional issues** to deliver responsive, user-friendly interfaces with clean, maintainable code.
- Collaborated with cross-functional teams in an Agile/Scrum environment; contributed to **code reviews, sprint planning, and technical documentation**, and shared knowledge across the team to improve consistency and quality.
- Analysed feedback and identified areas for improvement to enhance usability and overall user satisfaction.

PROJECTS

Forge Fit — Zero Compromise. Real Results. Github

- A privacy-first fitness tracker with tailored goal plans (Lean, Bulk, Maintenance), structured workouts, macro guidance, secure local authentication, encrypted per-user storage, and a real-time progress dashboard (weekly stats, logs, measurements) that monitors and reports user performance.
- **Technologies:** Vanilla HTML, CSS, Pure JavaScript

Synk Board — Visualize. Collaborate. Create. Github

- A sleek, infinite-canvas digital whiteboard for freehand drawing, shapes, text, and visual brainstorming. Added real-time collaboration, slashing remote brainstorming time by **90%**.
- **Technologies:** HTML, CSS, Vanilla JavaScript

Tome Tick — Where Words Meet Speed Github

- Optimized UI/UX resulting in a **5-second faster load time** compared to competitors, with real-time WPM/CPM tracking, secure login, daily streaks, session history, and PDF export built to boost productivity and user satisfaction.
- **Technologies:** HTML, CSS, Vanilla JavaScript

CERTIFICATIONS

- **Programming using Java** — Infosys Springboard *Dec 2024*
- **Data Structures and Algorithms using Java** — Infosys *Feb 2025*
- **SQL & Relational Databases** — IBM *Mar 2025*
- **Frontend Web Development** — IBM Edunet, AICTE Certified *Sep 2025*
