OBJECTIVE

Computer Science undergraduate (B.Tech CSE, CGPA 8.9/10, graduating 2027) seeking a **Software Engineer Intern** role to design, build, test, and improve reliable software. Strong foundation in **data structures, algorithms, object-oriented programming, and databases**, with hands-on experience in **Java, JavaScript, SQL/MySQL, and Git**. Built and deployed **three live web applications** and worked as a Frontend Developer Intern in an **Agile/Scrum** team, contributing to code reviews, debugging, and documentation. Solved **100+ problems on LeetCode**. Quick learner with strong problem-solving, communication, and attention to detail, eager to contribute to production-quality software and grow across the development stack.

EDUCATION

Qualification	Institution	Year of Passing	CGPA / %
B.Tech – CSE	R.V.R & J.C. College of Engineering, Guntur	2027	8.9 / 10.0
Intermediate (MPC)	Vidwan Junior College	2023	98%
SSC (10th)	Sree Narayana High School	2021	100%

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript (ES6+), SQL, HTML5, CSS3
- **CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Problem Solving (100+ LeetCode problems)
- **Databases:** MySQL, SQL (Queries, Joins, Data Retrieval & Validation)
- **Software Development:** Git, GitHub, Version Control, Agile/Scrum, Code Reviews, Debugging, Root-Cause Analysis, Technical Documentation, Responsive Web Design
- **Cloud & Deployment:** Netlify, Vercel, Render (cloud hosting with Git-based continuous deployment)
- **Tools:** Visual Studio Code, Figma, Microsoft Word, Microsoft Excel
- **Soft Skills:** Written & Verbal Communication, Analytical Thinking, Attention to Detail, Team Collaboration, Time Management, Eagerness to Learn

INTERNSHIP EXPERIENCE

Edunet Foundation × **IBM SkillsBuild** — *Frontend Developer Intern* | AICTE Certified *August – September 2025*

- Designed, developed, and tested web applications using **HTML5, CSS3,** and **JavaScript (ES6+)**; **debugged and resolved functional issues** to deliver responsive, user-friendly interfaces with clean, maintainable code.
- Collaborated with cross-functional teams in an Agile/Scrum environment using **Git version control**; contributed to **code reviews, sprint planning, and technical documentation**, and shared knowledge across the team to improve consistency and quality.
- Analysed feedback and identified areas for improvement to enhance usability, performance, and overall user satisfaction.

PROJECTS

LOB Simulator — High-Frequency Exchange Terminal Live Demo

- Built a limit order book simulator with a trading-terminal interface that models how buy and sell orders are placed, matched, and displayed in a high-frequency exchange, applying **data structures and algorithms** for efficient real-time order matching.
- **Technologies:** JavaScript, HTML, CSS, Git; deployed on Render (cloud platform)

Campus Signal Tracer — 5G Signal Mapping & 3D Campus Navigation Live Demo

- Developed a web-based system for R.V.R & J.C. College of Engineering that maps 5G Massive MIMO signal strength across campus and provides 3D cartographic navigation, with a mobile-friendly, installable dark-theme interface for phones and desktops.
- **Technologies:** HTML, CSS, JavaScript, Git; deployed on Netlify (cloud platform)

Tome Tick — Where Words Meet Speed Live Demo

- Optimized UI/UX resulting in a **5-second faster load time** compared to competitors, with real-time WPM/CPM tracking, secure login, daily streaks, session history, and PDF export built to boost productivity and user satisfaction.
- **Technologies:** HTML, CSS, Vanilla JavaScript, Git; deployed on Vercel (cloud platform)

CERTIFICATIONS

- **Programming using Java** — Infosys Springboard *Dec 2024*
- **Data Structures and Algorithms using Java** — Infosys *Feb 2025*
- **SQL & Relational Databases** — IBM *Mar 2025*
- **Frontend Web Development** — IBM Edunet, AICTE Certified *Sep 2025*
